

To all IKGH members

Greetings, guppy friends!

Guppy Club Bulgaria has cancelled its European pairs exhibition on the 12th of July due to the COVID-19 Pandemic.

In its place we wish to organise something never done up to this point - an online exhibition. This is done with the goal of not losing competitive form amidst the current situation.

In order to succeed we will need your support and the willingness to send us a short 30 second video of your pair of guppies.

We will separate them by class in accordance to the rules of IKGH and provide them to our judges.

I've uploaded such a video that you can use as an example. It is shot in a 5L aquarium with a black background (though it may be blue as well) that has a ruler for reference in it to help judge the size of the fish. The tank is artificially lit.

It is not acceptable to have any advertising or watermarks in the videos. These will not be included in the competition

Anyone who wishes to participate can send the video over email to office@guppyclub.bg by the 12th of July 2020.

The week following we will broadcast the winners in all 13 IKGH-defined classes.

For our ease we would be grateful if you could include the name of the breeder, their club and the fish's IKGH code in the title of the video.

We look forward to receiving your entries,

Bulgaria Guppy Club
